Reducing Supply  
Chain Risk to Enable  
Better Business

## SafeLandUSA 2021 Basic

**SafeLandUSA is the premier safety orientation for the US Onshore Energy and Petroleum Industry.**

**SafeLandUSA™**

### What is SafeLandUSA?

SafeLand is a volunteer organization comprised of major and independent operating companies, industry associates, and educators with the purpose of developing a standardized orientation which sets minimum safety requirements for the US Onshore Energy and Petroleum Industry.

The SafeLandUSA course covers high-level, basic safety topics essential to the industry including life saving rules, human performance factors, accident prevention, materials handling, behavioral safety, and hazard safety, which are all foundations of health, safety, and environmental hazard recognition.

## Features and Benefits

### Save Time & Money

Workers do not need to go through multiple safety orientations if working for multiple companies, or in multiple geographic areas, eliminating costly redundancies.

### Orientation Coverage

Workers are covered throughout the entire length of their careers.

### Data Management

Veriforce inputs and stores this training data to easily access at any time through the SafeLandUSA website and Veriforce's Training Management System.

### Quality Assurance

A SafeLandUSA safety audit committee ensures orientations with SafeLand are meeting the course requirements.

## Learning Solutions

Eighty percent of the leading oil and gas industry regulations and operators accept this orientation as it meets their requirements. Veriforce incorporates all required SafeLandUSA components into our most common safety orientations, SafeLandUSA 2021 Basic and Core Compliance.

Contact us today to speak to our client representatives to discuss which learning product is best for your company. As an accrediting organization, Veriforce can also accredit your existing safety orientation as a SafeLandUSA-certified orientation.

**Over 80%** of the top oil production clients in the US depend on the SafeLandUSA orientation to train their contractor workforce

**Over 2 million** workers have been trained in SafeLandUSA with over 3,000 SafeLandUSA-Certified instructors across the United States
